working horses as part of your woodland management plans**

Seminar Speakers:

- **DOUG JOINER Contractor and Chairman of the British Horse Loggers.**
- **TIM ALLEN Inspector of Ancient Monuments and Historical Buildings, English Heritage.**
- **NICK SELLWOOD Projects and Grants Manager, National Trust.**
- **ROBIN RIDLEY Wood Energy Co-ordinator, South Yorkshire Forest.**
- **GEOFF MORTON MBE Well known Retired Yorkshire Farmer and Horseman.**

Horse logging is the extraction of timber using horses as a 'base machine' with a wide range of traditional and modern implements. Horse logger's work through the whole range of timber produced in British woodlands; from small coppice poles and firewood, through thinnings in soft and hard woods up to final crop - large saw logs in soft and hard woods.
